Dedication: To the people of Newfoundland in honour of their ancestors

The Newfoundland Registers of Vital Statistics:

Pre-1891 Schedules

In 1891 the Government of Newfoundland began a national registry of births, marriages and deaths. Before then, there was no centralized government system for recording marriages and other vital events. As well, what was often recorded by civil authorities were population numbers rather than individual items. Marriages were noted in religious registers. However, by the 1930s some of the older Church registers were in very poor condition. With this in mind Sir John Charles Puddester began a campaign of transcribing the earlier records. Those transcriptions are what is indexed in this work.

What the Transcriptions Reveal

Persons consulting the transcriptions available on-line (indexed in this book) may discover the following details of the persons they are researching: 1) name of groom and bride; 2) date and place of marriage; 3) age of bride and groom; 4) marital status; 5) occupation; 6) religion; 7) residence; 8) witnesses to the marriage; 9) officiator.

This Index By Sections and How it Works

GROOM: This column contains the given, last and usually the middle name(s) of the groom that are listed in the online record. This includes aliases if they were mentioned. A person's initials are not usually listed unless they are the only item identifying the groom. Sometimes only short forms were inscribed, some of them being: Chas=Charles, Edwd=Edward, Geo=George, Jas=James, Jno=John, Rich'd=Richard, Thos=Thomas, and Wm=William.

BRIDE: Name of the bride. This is often the maiden name of the bride in question. However, sometimes because of a second marriage, her married name instead was written into the marriage record. The name includes aliases if they were mentioned. A person's initials are not listed unless they are the only item identifying the bride. Sometimes only short forms were inscribed, some of them being: Bgt=Bridget, Cathe=Catherine, Eliz=Elizabeth, Mgt=Margaret, and M=Mary.

DATE: This column notes the date that the event took place. It is not a registration date as there were no government registrations before 1891. In some cases only the year appears in an entry.

DISTRICT/LOCALITY: The District is always Bay de Verde. It was placed in all the entries of this index because they are part of a larger work to be published in the future. If Bay de Verde appears alone it means the marriage took place in the town of Bay de Verde itself. To get the municipality of a local place consult the table of localities below.

CREED: Religion. All the entries herein are from the Vital Statistics pre-1891 that were taken from religious registers and transcribed by the government in like manner. They will be found in the same way in this index with links below.

TO FIND THE LINK: Look for the local place in the entry you are interested in. Then go to the local places table above to find the municipality. Once you know the municipality take that info along with the date and religious info of the event to the links page finding the appropriate search item online.

Local Places and Municipalities for the Records Indexed

LOCALITY	MUNICIPALITY
Adam's Cove	Blackhead 1816-60, Western Bay 1877-91
Bay de Verde	Bay de Verde 1860-91, Bay de Verde 1880-92
Biscayan Cove	Blackhead 1816-60
Bradley's Cove	Blackhead 1816-60, Western Bay 1877-91
Broad Cove	Blackhead 1860-91
Broad Point	Blackhead 1816-60
